PROFILE

A dedicated and detail-oriented architecture student with a strong foundation in architectural design, drafting, and site development planning. Proficient in 2D modeling, rendering, and blueprint interpretation, with a keen eye for space planning and mass housing layouts. Passionate about creating functional and aesthetically pleasing architectural designs that enhance communities. Highly organized, a problem solver, and an excellent communicator, eager to contribute innovative ideas and technical expertise in the field of architecture.

EDUCATION

BACHELOR OF SCIENCE IN ARCHITECTURE

University of Science and Technology of Southern Philippines (USTP)

2021 - Present

WORK EXPERIENCE

ARCHITECTURE APPRENTICE

Bukidnon Lands Development Corporation
January 2025 - Present

- Assisted in developing schemes for site development plans for mass housing projects.
- Tabulated data for saleable and non-saleable units and spaces.
- Supported architectural planning and layout designs to maximize functionality and efficiency.
- Gained hands-on experience in technical drawing and blueprint interpretation.
- Collaborated with senior architects and project managers to ensure design feasibility and compliance.
